

WEBSITE DEVELOPMENT PROPOSAL

NEBCO CONSTRUCTION

Brand Strategy & Website Positioning Framework
Construction | Investment | Consulting

1. BRAND POSITIONING

NEBCO Group should be positioned as a premium Integrated Infrastructure & Development Group a company of credibility, capability, and confidence. This positioning resonates with corporate clients, government agencies, institutional investors, and high-value partners.

NEBCO CONSTRUCTION

Construction | Investment | Consulting

Building Confidence. Creating Value.

Why This Positioning Works

This positioning is clear, professional, and internationally recognized. It avoids abstract buzzwords like 'ecosystem' or 'hub', which are not commonly used by clients, investors, banks, or government agencies. It speaks directly to the people who matter most to NEBCO's growth.

2. TAGLINES & BRAND VOICE

i. Primary Tagline

BUILDING CONFIDENCE. CREATING VALUE.

ii. Alternative Taglines

Corporate	Construction. Investment. Consulting.
Partnership	Trusted Partners in Development.
Vision	Building the Future with Trust, Expertise, and Excellence.

3. HOMEPAGE STRUCTURE

The homepage should follow the structure used by leading engineering and infrastructure groups worldwide. Each section below defines its purpose and recommended content.

HERO SECTION

Headline: Building the Future with Trust, Expertise, and Excellence

Subheadline: Nebco Construction delivers integrated Construction, Investment, and Consulting solutions that help businesses, institutions, and communities achieve sustainable growth.

CTA Buttons: Explore Our Services | Contact Us

3.1 Company Overview

For over three decades, NEBCO has been delivering trusted solutions across construction, investment, and consulting sectors. Our commitment to quality, integrity, and timely execution has established us as a reliable partner for projects that create lasting value.

3.2 Business Divisions

NEBCO Construction Engineering and construction solutions for residential, commercial, industrial, and infrastructure projects.	NEBCO Investment Strategic investments that support economic growth and long-term development.	NEBCO Consulting Professional advisory services in project planning, feasibility studies, and business strategy.
---	--	--

3.3 Featured Projects Portfolio

Display a large, visual portfolio section with category filters:

- Commercial Projects
- Residential Projects
- Infrastructure Projects
- Industrial Projects

3.4 Leadership Message

A brief, professional message from the Chairman or Managing Director. This is standard among leading construction groups and significantly increases client and investor confidence.

3.5 Testimonials & Clients

Display client logos, success stories, and partner organizations. Social proof is a key trust signal for government, institutional, and corporate clients.

3.6 Insights & News

A professional blog covering construction trends, infrastructure development, investment opportunities, and project management. This section builds authority and improves search engine visibility.

3.7 Pages & Features Included

Page / Feature	Description
Homepage	Hero, stats, divisions overview, value pillars, CTA
About Us	Company history, mission, vision, values
Business Divisions (3)	NEBCO Construction, Investment, Consulting each a dedicated subpage
Project Portfolio	Visual gallery with category filters and project detail pages
Leadership / Team	Chairman message, key leadership profiles
Industry Sectors	Sector overview with visual layout
Insights / News Blog	CMS-powered blog for articles and updates
Contact Us	Inquiry form, office details, embedded map
Legal Pages	Privacy Policy, Terms of Use

4. VALUE PILLARS – WHY NEBCO

These five pillars should be prominently featured on the homepage. They communicate NEBCO's core values in a way that resonates with corporate clients and decision-makers.

Quality	Delivering excellence through industry best practices and rigorous project standards.
Integrity	Building long-term relationships through transparency and accountability.
Timely Delivery	Ensuring projects are completed on schedule and within the agreed scope.
Innovation	Applying modern methods and technology to solve complex challenges effectively.
Value Creation	Generating measurable, lasting results for clients, partners, and stakeholders.

5. INDUSTRY SECTORS

NEBCO's homepage should clearly display the sectors it serves. This establishes scope, builds credibility, and helps potential clients immediately identify relevance.

• Infrastructure Development • Commercial Construction	• Real Estate Development • Industrial Construction
• Investment & Development	• Project Consulting

6. BRAND COLOR SYSTEM

The following color palette creates a premium corporate identity. The combination of Burgundy, Charcoal, Gold, and White is consistent with major global infrastructure and investment groups.

Primary	#A51E22 Deep Burgundy	Authority, trust, strength. Used for headings, borders, and key elements.
Secondary	#222222 Graphite Black	Sophistication and professionalism. Used for body text and backgrounds.
Accent	#C9A227 Metallic Gold	Premium quality. Used for highlights, dividers, and taglines.
Neutral	#FFFFFF / #F5F5F5	Cleanliness and space. Used for backgrounds and layout breathing room.

7. STRATEGIC RECOMMENDATION

To build a brand that earns the trust of corporate clients, government agencies, and institutional investors, NEBCO's website and identity should embody the following principles:

Clean, Premium Layout

Generous white space, strong typography hierarchy, and structured grid layout modeled on leading engineering firms.

Project Portfolio as Proof

A prominent portfolio section with real photography, project names, and sectors demonstrates capability more powerfully than any claim.

Leadership Credibility

A message or profile from the Chairman/Managing Director creates a human connection and signals organizational strength.

Clear Business Divisions

Separating Construction, Investment, and Consulting as distinct divisions shows depth and professional structure.

Trust Signals Throughout

Client logos, awards, certifications, and partner organizations should appear consistently across the site.

No Marketing Jargon

Avoid terms like 'ecosystem', 'hub', or 'platform'. Speak plainly and professionally at all times.

8. COMPETITIVE DIFFERENTIATION HOW NEBCO WILL STAND OUT

The construction and consulting industry in Nepal already includes several established firms such as [Jadan Construction Group](#), [Samanantar Group](#), [CE Construction](#), and [Sitara Consult](#). While these organizations have strong industry presence, the proposed NEBCO website will be strategically positioned to deliver a more modern, premium, and investor-focused digital experience.

Competitor Websites	Common Industry Approach	NEBCO Proposed Advantage
Jadan Construction Group	Primarily company information and service presentation	Premium corporate storytelling with stronger brand positioning and value proposition
Samanantar Group	Focused on organizational profile and project information	Clear separation of Construction, Investment, and Consulting divisions under one integrated brand
CE Construction	Service-focused website structure	Interactive project portfolio with sector-based filtering and detailed project showcases
Sitara Consult	Consulting and engineering-centered presentation	Broader infrastructure and development positioning appealing to investors, clients, and government stakeholders

Key Differentiators for NEBCO

1. Integrated Business Structure

Unlike many competitors that focus on a single service area, NEBCO will present Construction, Investment, and Consulting as three strategically connected business divisions, showcasing greater organizational depth and capability.

2. Premium Corporate Brand Positioning

The proposed website is designed to position NEBCO as an Integrated Infrastructure & Development Group rather than simply a construction company, elevating its appeal to institutional clients, investors, and government agencies.

3. Investor & Stakeholder Focus

Most competitor websites primarily target clients. NEBCO's platform will also address investors, strategic partners, and development stakeholders through dedicated messaging and credibility-focused content.

4. Stronger Trust & Credibility Signals

The website will prominently feature:

- Leadership profiles and Chairman's message
- Major project portfolio
- Client testimonials
- Partner organizations
- Certifications and achievements
- Industry sectors served

These elements help establish confidence and demonstrate organizational maturity.

5. Modern Project Portfolio Experience

NEBCO's website will feature a visually rich project showcase with filtering by sector, allowing visitors to quickly explore commercial, residential, industrial, and infrastructure projects. This provides a more engaging user experience than traditional static project listings.

6. Thought Leadership & Industry Insights

A dedicated Insights & News section will position NEBCO as an industry authority by publishing articles related to construction, infrastructure development, investment opportunities, and project management trends.

7. International Corporate Design Standards

The website design will follow modern global engineering and infrastructure company standards, emphasizing:

- Clean layouts
- Strong typography
- Premium visual hierarchy
- Responsive mobile experience
- Fast loading performance
- Professional user journey
-

Strategic Outcome

The proposed NEBCO website will not simply function as a company brochure. It will serve as a digital corporate headquarters that strengthens brand credibility, showcases capability, supports business development, attracts strategic partnerships, and positions NEBCO as a leading infrastructure and development group in Nepal.

9. COST ESTIMATION

I. Development Phase (System Build)

All costs are presented in NPR and reflect standard market rates for enterprise-level website development in Nepal.

Item	Cost (NPR)
Frontend Development (Next.js)	80,000
CMS Development (Node.js)	35,000
Portfolio Gallery & Filter System	5,000
Contact & Inquiry Form (Email Integration)	5,000
Mobile Responsive Development	15,000
SEO Foundation (On-page SEO Setup)	20,000
Google Analytics & Tag Manager Setup	5,000
Subtotal (I): NPR 1,65,000	

II. Quality Assurance & Deployment Phase

This phase ensures the website is fully tested, optimized, secure, and ready for live deployment.

Item	Cost (NPR)
Cross-browser & Device Testing	10,000
Performance & Speed Optimization	10,000
Domain Setup & Hosting Configuration	8,000
SSL Certificate & Security Setup	5,000
Client Training & CMS Handover	10,000
Subtotal (II): NPR 43,000	

III. Project Summary

- Development Phase (I): NPR 1,65,000
- QA & Deployment Phase (II): NPR 43,000

Total Project Cost: NPR 2,08,000

10. PROJECT TIMELINE

The complete website will be delivered within 8–10 weeks from project kickoff, subject to timely content and feedback from the client. The project follows a structured 5-phase delivery model.

Week-by-Week Schedule

Week	Key Activities	Expected Output
Week 1	Project kickoff, content brief, sitemap finalization	Approved project plan
Week 2	Wireframe design for all major pages	Low-fidelity wireframes
Week 3	High-fidelity visual design, brand application	Final design mockups
Week 4	Frontend development — homepage & navigation	Homepage live on staging
Week 5	Inner pages — About, Divisions, Sectors	3 divisions pages live
Week 6	Portfolio, Blog/CMS, Leadership page	Portfolio & blog functional
Week 7	Contact form, SEO setup, analytics integration	Fully integrated site
Week 8	Content upload, QA testing, mobile optimization	Client UAT build ready
Week 9	Client feedback round, revisions (up to 2 rounds)	Revision-approved build
Week 10	Final deployment, domain, SSL, handover session	WEBSITE LIVE

Timeline assumes client provides feedback within 2 business days at each review stage. Delays in feedback or content delivery may extend the timeline accordingly.

11. PAYMENT SCHEDULE

A structured 3-stage payment plan is recommended to align milestones with disbursement and maintain project momentum.

Stage	Milestone	% of Total	Amount (NPR)
Stage 1	Project Kickoff & Design Initiation	60%	1,24,800
Stage 2	Design Approval & Development Start	20%	41,600
Stage 3	Final Delivery & Go-Live	20%	41,600
	Total	100%	2,08,000

12. TERMS & CONDITIONS

Term	Details
Validity	This quotation is valid for 30 days from the date of issue.
Revisions	Up to 2 revision rounds per phase are included. Additional revisions billed separately.
Content	Client is responsible for providing all logos, project photos, and key content for upload.
Hosting	Domain and hosting costs are the client's responsibility unless a managed package is agreed.
Ownership	Full source code and assets transferred to client upon final payment.
Support	30 days of post-launch bug-fix support included at no extra charge.
AMC (Optional)	Annual Maintenance Contract available from NPR 30,000/year for updates and support.
